Who We Are

Heartland Precision Fasteners, Inc., is a world class manufacturer of high strength, tight tolerance threaded fasteners located outside of Kansas City, Kansas. In business since 1994, our focus has been on best-in-industry quality and delivery. That focus has allowed us to grow rapidly over the last decade.

Our Delivery

At Heartland, we are aware that poor quality is not the only issue that costs our customers money. Long lead times, A.O.G.'s, downtime, and line stoppages are every bit as important and costly as quality issues. By remaining flexible, Heartland sustains on-time delivery rates in excess of 97% while maintaining better than industry average lead times. Expedited orders are also available in as little as 1 to 2 weeks.

Our Major Approvals

Bae Systems
Bell Helicopter
Boeing Company
Bombardier
General Electric
Gulfstream Aerospace
Hartzell Propeller
Honeywell
Kohler Company
Lockheed Martin
NASA
Northrop Grumman
Piper Aircraft
QML
Sabreliner
Textron

Our Quality

Heartland is an ISO 9000/AS9000/BSEN9002 Registered company. Our focus on quality has allowed us to maintain customer returns of less than 1% of sales. In addition, our solid performance has allowed us to steadily add many O.E.M. approvals over the last several years.

Our Capabilities

Heartland can cold head and thread roll fasteners up to 5/8" (.625") diameter by 6.00" long. Materials include 8740 Alloy, A286 stainless steel, PH13-8MO, Inconel, and Titanium. We also possess in-house CNC lathes and mills that allow us to manufacture machined parts and expedite orders. Reverse engineering is also available for your current applications.
